To VICTOR.

On 15 August GRIM and KATYA left here for home. I am giving you a characterization: GRIM is an exceptionally conscientious and hard-working person. Working very often under great overload, he never [25 groups unrecovered] enjoyed the esteem of all workers. For his many years of devoted work I beg you to consider the question of his reward.

KATYA is characterized in essence by the same qualities [In that] she learned the language well and excellently adapted herself to the [local] setting. She fulfilled the duties not only of a technical worker of the Office [KONTORA] but also of a qualified communications worker, working legibly without bangles. Please [1 group unrecovered] her very much.
